Options Available

- Board Form - creating a wood grain in the concrete
- Custom Sand - using a colored sand for optional color differences in the finish
- Custom Aggregates - colored glass, marble chips, colored stones
- Trivets - stainless strips that elevate hot pots and pans protecting the surface
- Integral Sinks - countertop and sink are one component
- Standard Colors - including but not limited to grays, browns, tans, earth tones
- Custom Colors - including but not limited to pure white, blues, purples, greens
- Drain Pans - stainless steel drip pan for a dish rack sloped to drain in a sink
- Hand Chiseled Edge - exposes the aggregate on the sides creating a broken stone look
- Inlays - stone, logos, metal star, gears, etc...
- Custom Edges - coves, rope, quarter and half rounds, etc...
- Metal Bands - surrounding bands of metal (steel, stainless, bronze, brass, copper)

Concrete is a versatile material that can be used for countless decorative purposes, don't limit your choices to our selections. If you have an idea of your own, we would be happy to let you know if we can create it for you.
